Summary

- 2.3+ years of experience in Software development and Analysis in building WebApplications using Java/J2EE Technology & Open-Source Technologies.
- Good Experience in implementing Java/J2EE technologies for application development in various layers of projects i.e., Requirement gathering, Analysis, Design, Implementation, Unit Testing and Deployment.
- Proficient with Applications servers like Tomcat.
- Experienced in AWS cloud services such as EC2, S3, RDS, and Lambda.
- Experience with database like Oracle, MySQL, Mongo DB.
- Hands-on experience with Spring Boot, Spring MVC and ORM tools like Hibernate.
- Developing Java interfaces & Configuration Management of the source code.
- Hands-on experience with Restful web services.
- Strong understanding of Software Development Life Cycles (SDLC).
- Familiar with the concepts of Objects, Classes and their relationships and how to model them and good hands-on experience in Spring Boot.
- Hands-on experience in using Git and SVN for code repository and version control mechanism.
- Designed and implemented a Kafka architecture that processed messages per second, ensuring high throughput and low latency.
- Having Hands-on Agile Methodology process.
- Experience with Eclipse, STS, Maven, Postman, Git.

Proficiency

Operating systems	Windows XP, Windows 7, Windows 10, Linux
Languages	JAVA
Databases	Oracle, MySQL, Mongo DB.
J2EE Technologies	Servlet, JSP.
Framework	Spring, Spring Boot, Spring Data Rest
Cloud Platforms	AWS
Distributed Technologies	Web Services, Microservices
(REST). Web /Application Servers	Apache Tomcat
Streaming Technologies	Apache Kafka
ORM Tools	Hibernate, JPA
J2SE Technologies	JDBC
Tools	Eclipse, STS, Maven, Postman, Git,

Employment History

- Working as an **Associate Software Engineer** at **UNOSIS IT Solutions PVT LTD** from July 2022 to till date.

Educational Qualifications

- Completed Graduation from - NBKR Institute of Science and Technology (JNTU – Ananthapur) from 2018- To 2022.

Professional Qualification

- Completed Training in **Java Full Stack Development** at Sathya Technologies.
- Finished **The Complete Web Development Bootcamp** on Udemy.
- Acquired **basic computer** and **MS Office** skills through an additional course.

Project Profile

Project # 1

Project Name	:	Altice USA
Role	:	Software Engineer
Environment	:	Java/J2EE (Core Java), Spring Boot, Hibernate, Maven, Microservices
Database	:	MySQL, Mongo DB
Operating System	:	Windows
Duration	:	July 2022 to Till DateProject

Profile:

Altice USA is a telecommunications and media company based in the United States. It is a subsidiary of Altice Group, a multinational telecoms and media conglomerate headquartered in Luxembourg. Altice USA operates primarily in the U.S. and provides a range of services including cable television, high-speed internet, and phone services.

Responsibilities:

- **Developing a web-based application by using Maven Apache Tom Cat Server.**
- **Design the Database for this project.**
- **Responsible for coding POJO Classes.**
- **Involved in implementing core Java.**
- **Code fixing and maintenance of the application.**
- **Responsible for coding Action Classes.**
- **Maintain up-to-date code documentation.**
- **Coordinated with the R&D team to upgrade the system as per client requirements.**
- **Handled task tickets for development and customization across different clients.**
- **Attending Client Meetings.**
- **Unit testing and integration testing of owned use cases.**
- **Ensured timely delivery and quality all compliant with the client's quality processes.**
- **Handled different types of issues.**

Project # 2

Project Name : STUDENT INFORMATION SYSTEM (SIS Mobile)
Role : Junior Software Engineer (Trainee)
Technology : J2EE, Spring, Spring Boot, Hibernate
Duration : **January 2022 to April 2022**

Project Profile:

SIS Mobile is a full-featured student information system school management system. A transactional software captures all information of a student right from enrollment all the way through graduation. Every single transaction in the form of attendance, grade book, report card, discipline, billing and transcript is recorded and maintained over multiple years. A student's past information is available at a click of a mouse.

Responsibilities :

- Coordinate with the Architects and managers for analyzing the requirements.
- Participated in functional specifications reviews.
- Prepared Flow charts for the design document.
- Created abstract document for requirement and implemented once approved by client.
- Designing and Coding backend.
- Build data access layer using Spring Data JPA.

Hobbies

- Stock trading
- Internet surfing
- Listening to music

Personal Details

- Date of Birth: 21/07/2000
- Sex: - Male
- Marital Status: - unmarried
- Nationality: - Indian
- Language Proficiency: – English, Telugu, Urdu & Hindi
